

PRODUCT OVERVIEW

SchoolCash Forms

Create customized online forms in minutes

SchoolCash Forms is an intuitive form-building application that makes it easy for district and school staff to create digital documents to collect and analyze data.

Featuring intuitive and easy-to-use tools, SchoolCash Forms allows district and school staff to create digital forms for seamless integration into the SchoolCash platform and communication workflows.

Build customized forms quickly & easily

Reduce the time spent creating forms and free up staff time for more value-added work.

Drive increased adoption of SchoolCash Online

Since forms are integrated into the online payment process, more parents/guardians will sign up to use SchoolCash Online.

Safely & seamlessly collect data

Streamline the entire process with a contact-free paperless workflow that eliminates back-and-forth emails and phone calls, as well as the possibility of disease transmission.

Save money through reduced supplies usage

Automating the process and providing a paperless solution cuts down on waste and reduces the cost spent on paper and printer ink.

Store student & financial information securely

Safely and securely store confidential or sensitive information in the cloud

Deliver increased convenience for parents/guardians

Forms are delivered directly for electronic signature and payment.

Improve data accuracy

Online collection ensures that the data is error-free and up-to-date.

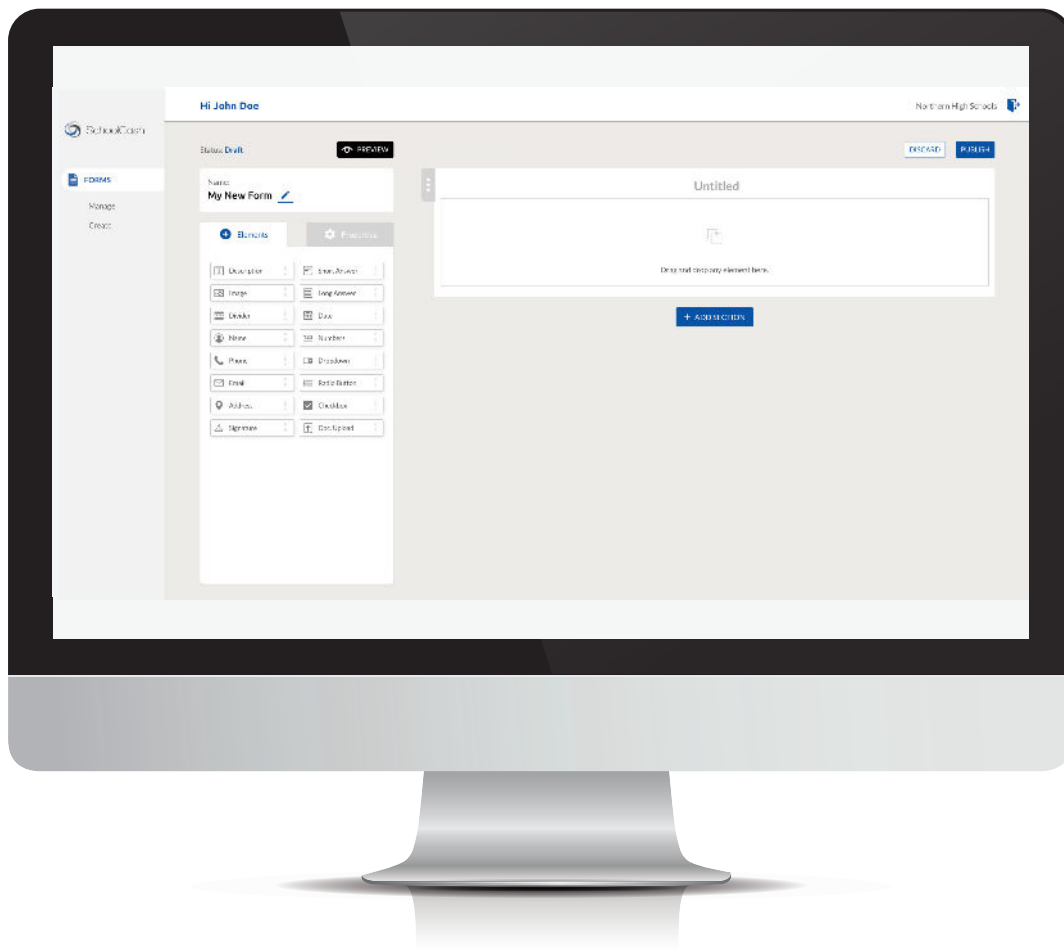

Ensure fast, real-time access to data

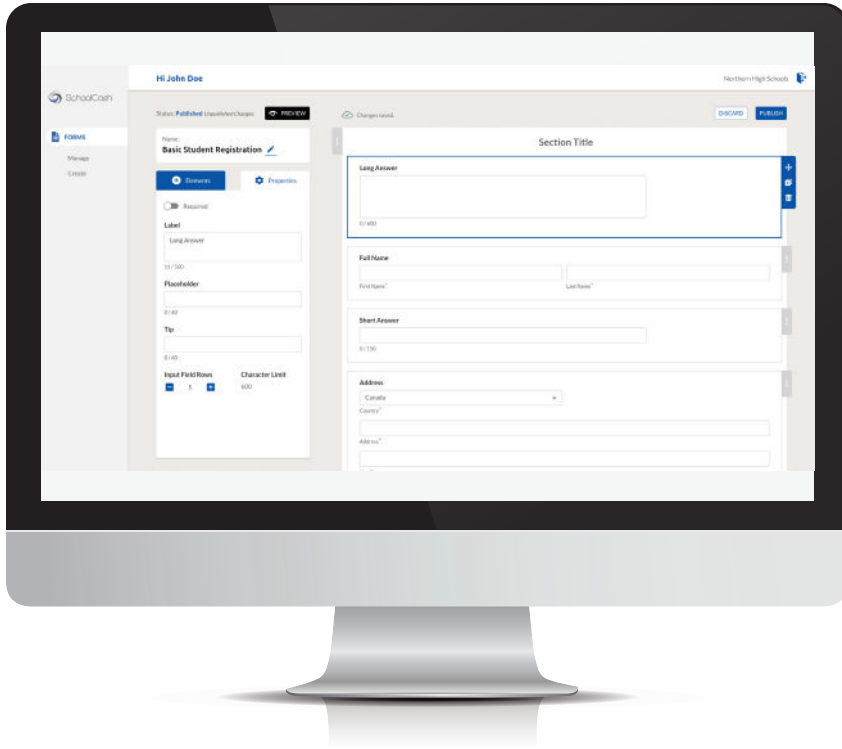

Give school staff members access to the information they need, when they need it.

Features

- Easy-to-use interface for quick form creation
- Comprehensive set of intuitive, drag-and-drop tools
- Responsive design for parents/guardians on smartphones or tablets to optimize user experience
- Create and release real-time updates to forms from the district office
- Seamless integration with SchoolCash Online allows forms to be delivered directly to parent/guardian inboxes for completion and payment
- Professional-looking, pre-designed templates that can be styled to conform with brand standards
- Automated workflows and approval history (SchoolCash Forms+)

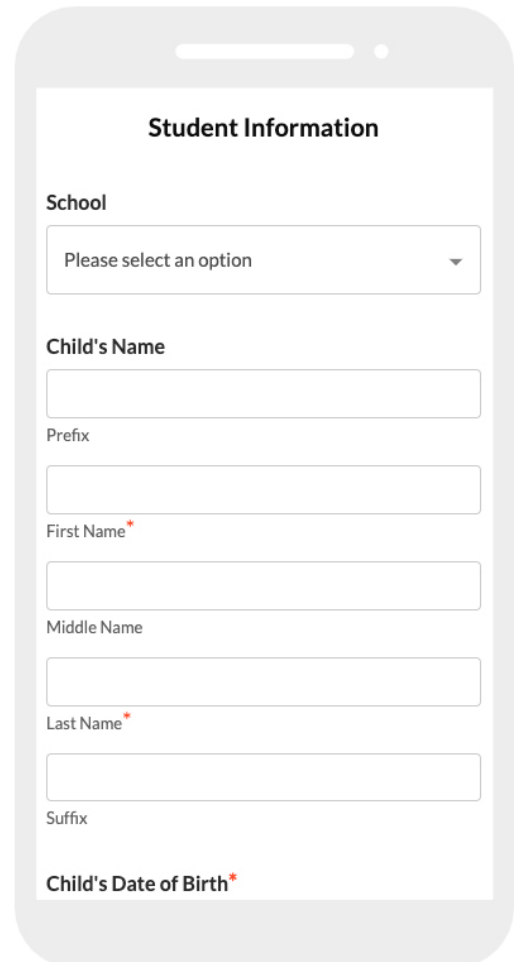

To start building a form, elements are dragged and dropped from the left side of the screen to the main area. Double-clicking an element automatically adds it to the bottom of the form.

After dragging and dropping an element to the main area of the screen, the elements table on the left changes to the properties tab for the element that was just added. The element that was added will also be selected.

Each form you create features mobile-friendly design that intuitively adapts to smartphones or tablet devices. This means your district can create professional-looking forms that are easy for users to view and complete without the need to zoom, pinch, or swipe.

Using Forms

Digitally collect the information you need for almost any program or initiative in your school district. District and school staff can publish a variety of different forms that seamlessly capture and integrate data into your SchoolCash workflow.
